

World Data League

World Data League

SCAVENGER HUNT

Hello World Data League Hunters!

Welcome to your first challenge activity! To get started, we've compiled a series of questions, challenges and tasks. It is your mission to decipher the clues and find the answers. Our wonderful Partners have provided a few challenges as well, so be sure to thank them for their support when you get a moment during the competition.

The Rules - It's Pretty Simple

- Play as a Team - how you go about it is up to you!
- There are 18 challenges and 6 days to complete them (10-15 April).
- All answers must be submitted by 23:59 GMT+1 on 15 April.
- Your team captain should submit the answers through the link on the final page.
- For challenges that involve reaching out to other teams - please be respectful if they choose not to play along.
- Each clue has been thoughtfully and carefully worded. Read them with care to determine your starting point and take note of even the slightest variances. If you still aren't sure where to begin, the WDL website is a good starting point.

Go forth, have fun, be silly, and don't be afraid to reach out in Discord in the #wdl-activities channel if you get stuck.

Ready! Set! Go!

Challenge I

In March 2021 Oracle partnered with a winning and powerful Team to optimize the way data is used through machine learning, data analytics and Oracle Cloud Infrastructure's high performance computing capabilities. Do you know which Team we are talking about?

Provide your answer and take a screenshot of the coolness of this collaboration.

Challenge II

You played along with the Two Truths & A Lie game, so now it's time to find another team, from another country, and ask them to identify their lie. Share it with us and tell us why you think it was a good lie!

Challenge III

What is the financial instrument that finances the UCD Lab project and what is the main objective of this instrument?

WCL.

Challenge IV

Do you have mad skillz? Show us what you can do as a team in a 30 second (or less) lip syncing video of a song in your team countries language. If you're an international team, choose a country of one of your teammates. Provide the link to your video as your answer.

Challenge V

A challenge has been Presented, one you muSt complEtE. Four words await you through a challenging site - remember English is the key to get this right. Complete the sentence below.

We are specialists in ____ and ____.

Words 1 and 2 clue: Orange you glad you Consulted the clues? Maybe you can use your Mobile to get ahead.

Words 3 and 4 clue: Perhaps if you Get to Know them better, their Awards will make you Green with envy.

WCL.

Challenge VI

WDL Co-founder Leon never gave up his dream of creating a Data Science competition. It was through his Networks that he teamed up with co-founders Rui and Miguel to form what is now World Data League. Learning about the team is the key to your quest. Your final destination will not let you down. Post the URL as your answer.

Challenge VII

We are a Global League that helps Data Scientists. But there's one thing the WDL Team does not do! Tell us what that is with a meme of your choosing!

Challenge VIII

If your Team was a popular sitcom, what would it be and why? Assign each teammate a character from the show. Don't be afraid to get creative.

WDL.

Challenge IX

Take a photo of your team on zoom/meet spelling a word related to this competition using your bodies.
Submit the photo.

Challenge X

We all look towards a World of Change where IoT brings everyday impact. Four ways are out there by a Top Partner who cares. Who is this Partner and what are the four ways?

WCL.

Challenge XI

Collect badges from three international cities representing the first letter of each word in the Name of this Competition. Solve the clues to find the white, green and blues.

Clue #1: Picture this World Data League Challenge: in an Urban setting you're sure to find this city, the seat of American power.

Clue #2: If you got a free ticket for the end of this month, you'll know they have another one that moved cities in 2016. What was the original city? The World Data League Community is the place to start to find your little pieces of art.

Clue #3: One of our technical partners has offices in London, but the Founder moved home to this city in 2020. Find the site and reach out to be right.

Locate and submit an image of the badges: screenshot or right click to save.

WDL.

Challenge XII

Our community reaches the ends of the earth, Accounting for the many languages spoken amongst us - no matter where we are Based. Can you find the 3 languages this Solution is available in? You may need to translate. Name the Solution and the languages.

Challenge XIII

I was first conceived in the Chinese math books around 3rd century BC. Since then I've been studied and generalised. Now I'm an important part in many algorithms and applications fields.

I can tell if there's a unique solution, dependency or even solve systems... One might call me a 'symbolic processor'. I've helped electronics and in general graph theorems... But you most likely use me to reduce dimensionalities.

Who am I? Provide the name and the URL of the Wikipedia page of the book where I was first conceived.

WCL.

Challenge XIV

Making an Impact is the name of the game. What Group is Report-ing a positive effect on the environment? Name the series and the organization.

Challenge XV

In the times of Covid, in our home offices we can be found, with our furry little friends sure to be around. Our co-workers they've become and Zoom is their stage, now show us where they work - lights, camera, action!

Submit a fun photo of your pet in your work area. Don't have a pet, you say? Get creative and make one from objects around your home!

WCL

Challenge XVI

If you think Out-side the box, this System is a go with a Developer Community that has an impressive number of Courses. Provide that number and name of the Community.

Challenge XVII

If you've been in Discord and followed the chatter, it was said last week that they don't really matter. If you follow the links and see where they go, you'll be one step closer to being in the know. Overrated you say? Now go find the clues, because this group would tell you: _ _ _ _ _!

Word 1: 1st word

Word 2: 1st column, 2nd question, 2nd sentence, 4th word

Word 3: 2nd paragraph, 2nd sentence, 19th word

Word 4: 2nd paragraph, 3rd sentence, 6th word

Word 5: 1st paragraph, 4th sentence, 13th word. Enjoy this gem while you're at it!

WCL.

Challenge XVIII

What is the annual ScaleUp Porto initiative that aims at supporting communities, boosting the impact of their activities connected to innovation, technology and entrepreneurship?

If you've found all the answers, your quest is complete.
Just one final step if you're not to be beat!
