Our Speakers

Nadira Bajrei
IT Continuous Improvement and Knowledge Management, Bank Mandiri Tbk

Lincoln Thum
Network Security Consultant, Netpoleon

Dennis Stötzel
Managing Principal IT Security, mgm technology partners Vietnam

Gargi Gupta
Security Researcher, Adobe

Rahul Kumar
Security engineer, Microsoft

Julian Berton
Security Engineer, SEEK

Trinh Tran
Software engineer, mgm technology partners Vietnam

Clint Gibler
Research Director, NCC Group

Jaap Karan Singh
Co-Founder and Chief Singh, Secure Code Warrior

Liz Rice
Technology Evangelist, Aqua Security

Kelly Ann
Product Security Engineer, Slack

Zane Lackey
Chief Security Officer, Signal Sciences

Sharath Kumar Ramadas
Lead - Solutions Engineering, we45

Cameron Townshend
Solution Architect, Sonatype

Aravind Putrevu
Developer Advocate - Security, Elastic

Kunal Relan
FullStack Developer

Rupali Dash
Independent Security researcher

Shahnawaz Backer
Security Specialist, F5 Networks

Prasanna Kanagasabai
Security Engineering Lead, Grab Taxi

Tilak T
Senior Solution Engineer, we45

Darryl McKinnon
VP & MD, Puppet

Eugene Swee
Sales Engineer, Puppet

Sanoop Thomas
Security Researcher

Justine Osborne
Offensive Security Technical Lead, Apple

Samandeep Singh
Principal Security Consultant, SEC Consult Singapore

DevSecCon Singapore

Welcome

Thank you for being a part of DevSecCon Singapore 2019!

As we all know a year is a long time in the world of Security and DevOps. We're delighted to be back in Singapore, with a lineup of experts and influencers to share and discuss the latest insights into, and challenges faced by our industry.

In 2018 we helped highlight and fuel the new era of collaboration between DevOps and Security teams and thinking. This year we'll not only build on that but also dig deeper into securely deploying Kubernetes, Cloud, Serverless, web applications in CD pipelines and many other topics dedicated to 'shifting left' and DevSecOps.

As always community and face-to-face networking are key elements in any DevSecCon conference and we've made plenty of time for these activities. We hope you enjoy the next couple of days and can't wait to hear your feedback so we can continuously deliver valuable and enjoyable events.

The DevSecCon Team

Sponsor Passport Contest

⚡ Win an iPad

You've got the chance to win one of three Apple iPads! All you have to do is visit the exhibitor area with your sponsor passport (you can find it in your goodie bag) and collect stamps from the participating sponsors.

3X When you're done, simply write your name in the field on the left inside page and hand the passport back to a member of the DevSecCon team at the reception. Winners will be announced at the end of conference day 2. Good luck!

RULES:

- Only one passport per person allowed
- Only one stamp per sponsor accepted
- You must be present during the winner announcement to be able to win

Agenda | Day 1 — 28 February 2019

TALK TRACK ⌖ Nicoll 2	WORKSHOP TRACK ⌖ Room 327
08:30 - 09:30 Registration & Breakfast ⌖ Nicoll 1	
09:30 - 09:35 DevSecCon day 1 opening speech Francois Raynaud & Suman Sourav	
09:35 - 10:15 Can "dev", "sec" and "ops" really coexist in the wild? A real world case study Trinh Tran & Dennis Stötzel	
10:20 - 11:00 An attacker's view of Serverless and GraphQL apps Sharath Kumar Ramadas	10:20 - 12:40 Azure Security: Securely building and deploying cloud services Gargi Gupta
11:00 - 11:20 | 20-Minute break
